12. Adjourn
Good morning, Dawn. As you will recall, Moraga Town Councilmember Kymberleigh Korpus has raised concerns about the eminent domain power of MCE which is referenced in the JPA Agreement. I am forwarding a slightly edited version of her e-mail below on that subject, with a request that MCE staff study the issue and bring it forward to the appropriate MCE committees and/or board for further discussion during the next 12 months. Thank you.

Regards,

Dave Trotter
Mayor, Town of Moraga

I have another concern that I’m hoping you can help me with: As you know, I am deeply concerned that the terms of the Marin Clean Energy Authority Joint Powers Agreement gives MCE the “all powers common to the Parties and such additional powers accorded to it by law,” and authorizes MCE to “exercise all powers and do all acts necessary and proper to carry out the provisions of [the JPA Agreement] and fulfill [MCE’s] purposes.” This grant of powers is deeply concerning to the extent that it includes the authority and power of MCE to exercise in its own name the Town of Moraga’s power to acquire real property in Town by eminent domain.

The JPA Agreement gives this power and authority to MCE in section 2.5.4. This is problematic because: (i) I do not think it served the best interests of the Town or the residents to give another outside agency any decision making power (or influence) on the question of what should or can be built in Moraga, and (ii) as currently drafted, the JPA Agreement doesn’t even give the Moraga Town Council the right to veto any such exercise of the power of eminent domain against its citizens.

During our deliberations earlier this year as we tried to determine whether Moraga should join MCE, MCE strongly stated that it had no intent of exercise the power of eminent domain anywhere – much less in our town. That statement was not very reassuring to me, as organizations, policies, and plans all change over time. I want to make sure we provide adequate protections to our residents on this issue for now, and for the future, and when I expressed my concerns in this regard, the MCE representative
stated that MCE would be willing to consider amending the JPA Agreement to remove this power from its arsenal, because that kind of tactic was not part of its business plan.

Would you be willing to follow up on this and see if you could get the JPA Agreement amended so MCE no longer has the ability to exercise the power of eminent domain to take property from our residents and put it to use in generating renewable energy?

I would really appreciate any headway you can make into this issue.

Kymberleigh
