

PG&E – MCE Commercial Joint Cost Comparisons

As part of our mutual commitment to support your energy choice, MCE and PG&E have partnered to create a comparison of our typical electric rates and average monthly charges.

Most business customers use the COM-1 (PG&E Equivalent A-1) rate but comparisons for all residential rate schedules are below. For detailed MCE rates, visit www.mceCleanEnergy.org/rates-com.

Definitions

Generation Rate is the cost of creating electricity to power your home. The generation rate varies based on your energy provider.

PG&E Delivery Rate is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both MCE and PG&E customers.

PG&E PCIA/FF represents the Power Charge Indifference Adjustment (PCIA) and the Franchise Fee surcharge (FF). The PCIA is a charge to cover PG&E's generation costs acquired prior to a customer's switch to a third-party electric generation provider. PG&E acts as a collection agent for the Franchise Fee surcharge, which is levied by cities and counties for all customers.

General Service Rates

COM-1 / A-1 (Small General Service)	PG&E	MCE Light Green 50% Renewable	MCE Deep Green 100% Renewable
Generation Rate (\$/kWh)	\$0.09654	\$0.07905	\$0.08905
