

Transparency is important to us at MCE. The Deep Green Product Content Label explains where your Deep Green energy is coming from. Every bit of it is certified renewable by the Green-e Energy. In 2015, we're adding lots of solar energy to the mix.

| Deep Green Product Content Label <sup>1</sup>   |                             |  |                                |                          |
|---|-----------------------------|--|--------------------------------|--------------------------|
| This product matches 100% of your estimated electricity usage.<br>The product will be made up of the following new renewable resources averaged annually.   |                             |  |                                |                          |
| Green-e Energy Certified New <sup>2</sup> Renewables in MCE's Deep Green 100% Renewable Service Option  |                             |  |                                |                          |
| ENERGY SOURCE   | 2014 CALENDAR YEAR (ACTUAL) | 2014 GENERATION LOCATION   | 2015 CALENDAR YEAR (PROJECTED) | 2015 GENERATION LOCATION |
| • Solar   | 0%                          |  | 23.3%                          | Kings County, CA         |
| • Wind  | 100%                        | Kern County, CA & Klickitat County, WA   | 76.7%                          | Columbia County, WA      |
| <b>Total Green-e Energy Certified New Renewables</b>  | <b>100%</b>                 |  | <b>100%</b>                    |                          |
| <p>1 These figures reflect the power that MCE has contracted to provide. Actual figures may vary according to resource availability. MCE will annually report to you the actual resource mix of the electricity you purchased during the preceding year.</p> <p>2 New Renewables come from generation facilities that first began commercial operation on or after 1/1/00.</p> <p>For comparison, the 2012 average mix of resources supplying California customers includes: Renewables (15%), Coal (8%), Nuclear (9%), Oil (0%), Natural Gas (43%), Hydroelectric (8%), and Other (16%).</p> <p>The average home in MCE's service area uses 463 kWh per month.</p> <p>For specific information about this electricity product, please contact MCE at 1 (888) 632-3674 or visit <a href="http://www.mceCleanEnergy.org">www.mceCleanEnergy.org</a>.</p> |                             |  |                                |                          |
|   |                             | <p>MCE's voluntary Deep Green 100% Renewable Energy product is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions.
